BIO

Foot-stompin, banjo driven, folk twang with a splash of pop. That's the promise of Zack Ingles' latest project "Get Ahead." From the rural valleys of New Brunswick comes the songwriter with a refreshing ability to explore complex and often taboo social conversations, packaging them within heart-pumping 4-on-the-floor bluegrass rhythms.

"Get Ahead" (June 2024) has received praise from every corner of Canada; including regular national airplay on CBC Radio 1 and 3; with the title track being featured on East Coast Music Hour and the song "Weathered Heart" earning more than 50,000 streams to date.

Notable appearances have included: Area 506, Shivering Songs Festival, Winter Warmer Festival, Living Roots Festival, Rising Tides Festival, TrailFest, Sussex SummerFest 2024 (fan choice award), PaddleFest, Dooryard Festival, a 2024 Christmas Fundraiser Tour that raised over \$6,000 for local charities over 5 shows, and winning the Scene's Big Battle of the Bands 2024.

Ingles' debut full-length album is slated for release in Spring of 2026; promising a further refining of the from-the-heart songwriting and fast paced rhythms that have resonated so deeply with his audience.

"How did a rural NB musician receive over 35,000 streams of his latest release."

-CBC Saint John Interview

"The often-gravelly texture of his singing voice enhances the fact that he understands the little hardships we all go through."

-Great Dark Wonder
